

E118H2

RM:
118

FULL-SEASON YIELD LEADER WITH HIGH TOP-END YIELD

- Solid agronomic package with excellent harvestability
- Best placed on highly productive soils
- Use moderate planting rates for best performance

1-9 Scale: 1 = Best, 9 = Worst, (-) = Not Available, NA = Not Applicable.

Icon Scale: ★ Best Choice ● Good Choice ▼ Average to Slightly Below Average ✘ Not Recommended

* Rating represents an assessment of stand establishment, chlorosis severity and yield performance

** Indicates whether hybrid contains multiple agronomic phenotypic traits deemed important for continuous corn systems

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.
